gold Pavers Read Band Issue. Farmington, Mo.—Speaking before more than 8,00 people fore, Joseph F. Leopald of St. Louis, declared that, while Missouri ranked first in mules, second in hogs and hens, mud roads have reduced its rank to thirty-fourth in education. The meeting was held by the Army-Navy Motor Truch Caravan, which is touring the austhern by the Army-Navy Motor Truch Caravan, which is touring the southern
part of the state from St. Louis to
Kanas City in the interest of the \$60,000,000 bond issue which will be voted
on next menth. Declaring that unless the people who have deserted the
farms within the last decade return to agricultural pursuits the United States will be confronted by a crisis greater than war, Leopold said forty years ago two-thirds of our entire population lived on the farms. He de clared today, according to the government,two-thirds of the nation's peop live in the cities. Eighty-nine of the counties in Missouri whose census has been reported show a decrease in population. In the last decade we have done more for the comfort of our live stock than we have for our children and women who live in the country districts. The average school lance in the country has decreased at an slarming rate, and in several remote districts we have an average dally attendance for the year of one pupil. The average salary

paid to our rural school-teachers is \$390 for the year. Missouri has lost more than 23 per cent of its school revenue through non-attendance, due to impassible roads. This represents more than \$1,000,000 annually. For illiteracy this state stands thirty-fourth among the states and our island possessions Even Hawaii and Porto Rico, inhabited by aliens, are ahead of us in ed ucation because they have surpassed this state in good roads and transportation facilities.

If You Need a Medicine

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a madicine. applies more particularly to a medicine. A medicinal preparation that has real curative value almost selle itself, as like curative value almost selle itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it. A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers teetify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming hidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which esuses rheumatism.

TWO MOST DANGEROUS REDS

Chicago.-Discovery of vast amounts of radical literature in the possession of Nicolai John Jazzinski and John Holoney, declared to be two of the most dangerous radicals in America, who were arrested here by agents of the Department of Justice, was an-

In Jazzinski's possession was found nearly half a ton of Communist articles, including samples of a new pamphlet advertising armed revolution by foreign elements in this country. One hundred thousand of these pamphlets, it was said, were shipped out of Chicago by Jazzinski via the American Express Company. They were traced and are being held for the authorities.

The agents said documents were found in Holoeny's possession which gave evidence that he was associated with a radical Russian anarchistic group in America. It was said virtually every anarchistic document ever printed in the Russian language was found among his effects. Chief among these, they said, was the proclamation of the union of Russian workers calling upon all its members to rise and overthrow the Government of the United States by force of arms, utilizing murder and destruction to gain their ends.

This proclamation was printed in Russian, the agents said, and translation of it revealed a complete plan for the revolution.

Holoeny, it was said, is 34 years old and unmarried. He has a criminal record abroad and has been under surveillance in New York City and Waterbury, Conn., for some time, the authorities said.

The two men were taken in a raid upon their quarters in a section of the city populated largely by foreigners. The agents who made the arrests said they were now on the trail of the "mysterious printshop," believed to be lo-cated here and which they declare has been sending out millions of anarchis tic pamphlets.
